

July 22, 1977

Mr. W. A. McFarland, Manager
Quality Control
Vulcan Materials Company
459 North Cline Avenue
Gary, Indiana 46406

Dear Mr. McFarland:

Re: Disposal of Filter Cake and Kiln
Scrubber Mud

This will acknowledge receipt of your letter dated June 30, 1977, concerning the above-referenced subject. The staff has reviewed the analysis of the two wastes you submitted and the results obtained from the Indiana State Board of Health Laboratory on these wastes.

This material was previously approved for temporary disposal at the Gary Land Development site until the analyses of the wastes could be obtained. You are hereby granted approval to continue disposal of this material at the Gary Land Development Landfill, #45-2.

It is understood that there is approximately 1,500 pounds per week of filter cake and 3,000 pound per week of kiln scrubber mud generated for disposal. This material is to be mixed with the general refuse and covered at the end of the working day.

If you have any questions, please feel free to contact Mr. Guinn Doyle or Mr. Bruce Palin at 317/633-0176.

Very truly yours,

Roland P. Dove, Director
Division of Sanitary Engineering
